prices will be received. In manufactured goods an unusually active demand for autumn delivery is reported. The distribution of seasonable goods is also, according to all accounts, very satisfactory. Bank clearances, though somewhat smaller than last week, are 34 % cent, larger than for the corresponding week of last year and 65 % cent greater than in 1852. Business failures are small, both in number and in amount of liabilities. The domestic money market is not disturbed by the exports of specie, which were increased to-day to \$8,500,000 by the engagement of \$1,000,000 for shipment to-morrow by a newcomer in the foreign exchange market. The large excess of exports over imports of merchandise last month, in spite of the failing off in exports as compared with last year, would seem to indicate that no very large amount of specie is likely to be required in making foreign settlements pending the outward movement of this year's surplus pro-duction of breadstuffs and cotton. The comparatively small amount of gold that has al-ready been shipped has had the desired effect upon some of the European money markets and has unquestionably been instrumental in diminishing foreign sales of American securi-

The most noteworthy local development today was the fulfilment by the management of the Federal Steel Company of the predictions of some of its directors and friends that the common stock would be pinced upon the divi-dend paying list. In order to declare the dividend of 14 F cent upon Federal Steel com-mon, the management has set aside the cash required to pay at the rate of 6 % cent. the fiscal year, and, besides, the company, according to an official statement, carries forward a large surplus. The announcement of the dividend was the signal for the usual afternoon raid of the bear contingent in the stock market. Prior to that event the market had been dull, and in the main very steady. Notwithstanding the final demonstration against prices, a large proportion of the list closed fractionally higher than yesterday, and a number of stocks, notably the anthracite group, closed materially higher. Those that received the brunt of the selling movement namely. Federal Steel common, Sugar Befining, C., B. and Quincy and American Steel and Wire, sustained net losses averaging less than half of 1 \(\mathbb{T} \) cent. There was a further falling off in the volume of trading as compared with the movements of currency this week, printed further on in this column, the banks have probably lost in the neighborhood of \$5,000. 000 in lawful money. The prospect of an unfavorable bank statement was not lost eight of to-day and doubtless influenced some of the professional seiling. The closing of the market was, as for several days past, in the main

The local movements of money this week are described by the New York News Bureau as follows: Bank reports of the direct express movement of money to and from the interior this week show a loss in cash for the first time in several months. The figures on which these settimates are based are furnished by the regular large shippers. It is said, however, that estimates are based are furnished by the regular large shippers. It is said, however, that the usual channels \$1.774.300, and received \$1.205.630, a loss of \$569.241. The gold exported late last week and \$1.205.630, a loss of \$569.241. The gold exported late last week and to figure in to-morrow's bank statement from \$2.750.000 to \$3.000.000. and the banks lost to the New York Sub-Treasury \$1.820.000. If the extreme loss from gold exports to Europe proves to be fully reflected, the general figures would indicate a net loss in movement of the week was the unusually light amount received in New York from Baltimore and Philadelphia. No special significance, however, is attached to the matter. Bankers generally say that no uneasiness whatever need be felt regarding the financial situation in this country for some time to come:

Estimates made on 10 per cent, of copper ore now opened up on two of the twenty-five claims owned by the Black Warrior Copper Company, in the vicinity of Globe, Ariz., show 20,000 tons of metallic copper, worth at Globe \$300 per ton. A smelting and leaching plant will be attarted July 15. Operations are jexpected to result in a profit of \$4,000,000.

According to a Randsburg (Cal.) correspondent the output of that camp for 'May was the largest in its history—\$150,000, as against \$75,000 for May, 1898.

Strong hopes are entertained that Creede will be placed on its old-time footing as one of the greatest mining camps of Colorado, Work on the Amethyst has begun, and it is said that the returns increase with the depth. The mine is nearly untouched below the seventh level. The New York and Chance, on which operations have also commenced, are also properties with the lower levels untouched. It is asserted that the great veins on Bachelor Mountain have only been scratched.

Eastern capitalists are reported to have paid \$1,000,000 for the Silver Peak property, fifty miles from Candeleria, Esmeralda county, Nev. There are 200 claims on a number of lodes of gold and silver ore. Little work has been done on the property the past five years. One of the oldest producers of silver in southern Arizona, the Sam Navier mine, twenty miles from Tucson, was recently purchased by Kansas City parties. Since the purchase the developments are said to have been extensive.

A strike of gold quartz is reported six miles east of Bisbes, Ariz. The rock has assayed \$100 in gold, with values in copper and silver. It is announced that the mines at Hedges, Cai, owned by the Golden Cross/Mining Company, and lately operated with most satisfactory results by C. W. Pauley, the receiver, will be sold to Col. Isaac Trumbo, acting for a company, the purchase price being \$1,000,000.

The principal owners of the group are the folden Cross, Golden Quees and Golden Crown.
